CLIENTS WHO ITEMIZE DEDUCTIONS -

Most clients begin to itemize deductions when they own a home and have mortgage interest and property taxes. If you think you might be in this group, please prepare the following items:

Medical expenses, if they are significant -

To determine if they are significant, add up your basic income items – W-2, 1099, and then multiply that number by 7.5% if you are 65 or older or 10% if under 65. For example if your income is \$100,000 and you are under 65, your medical expenses must be above \$10,000 and actually have been paid during the current year. If you are 65 or older and your income is \$100,000, your medical expenses must be above \$7,500 and actually have been paid during the current year. If your medical expenses are greater than the above numbers, you may be in a position to deduct them:

- Insurance premiums, including Medicare premiums
- Long-term care insurance premiums
- Doctors and dentists
- Prescription medications
- Hospitalizations
- Prescribed holistic treatments such as chiropractic, acupuncture, etc.
- Durable medical equipment
- Number of miles driven for medical purposes

Taxes -

- State and local income taxes paid in 2015
- Property (real estate) taxes (not for rental property) paid in 2015
- Sales tax paid on a car, truck, SUV, motorcycle, motor home, aircraft, boat, or materials used to build your home
- Personal property taxes (car licenses are not personal property taxes)

Any other taxes paid in 2015

Interest -

Home mortgage interest and points reported on Form 1098 (please bring the Form to your appointment)

Home mortgage interest and points not reported to you on Form 1098 (if paid to the person from whom you bought the home, please bring any documentation of the interest paid and the name, address and Social Security number or Employer Identification Number of the person to whom you made the mortgage payments)

Mortgage Insurance premiums

Investment interest

Charitable Contributions -

If the value of any contribution is **\$250 or more to one charity in one day**, you are **required** to obtain a written receipt from the charity. It must contain name and address of charity, date, location of contribution, the amount of cash donated, or a description of the items donated, and whether any goods or services were provided to you in return for the donation. The receipt must be signed by the charity and in your hands no later than the filing date of your return. Except for publicly traded securities, most donations over \$5,000 require a written appraisal.

Gifts of money (cash, check, or credit card) to a charity that you can substantiate (the IRS requires that all contributions are substantiated)

Non-cash gifts must be in good or better condition, and if your total non-cash donations total more than \$500 in value please see the attached *Salvation Army Non-Cash Charitable Contributions / Donations Worksheet* for further reporting instructions.

Casualty and Theft Losses -

To determine if they are significant, add up your basic income items – W-2, 1099, and then multiply that number by 10%. For example if your income is \$100,000 your total casualty or theft losses must exceed \$10,000 after any insurance reimbursements that have been received or are reasonably expected to be received in the future. If your losses are greater than the above numbers, you may be in a position to deduct them:

Information on casualty or theft losses (including Ponzi scheme losses), including proof of the loss (police or fire department report(s)), cost of the property lost, fair market value of the property at the time of the loss, and information regarding all reimbursements received or reasonably expected to be received for the loss

Miscellaneous deductions -
